AMSHA AFRICA FOUNDATION

We encourage and facilitate the initiation of community-based projects that are acceptable, affordable, sustainable, and aimed at improving the welfare of the community.

What we do

- Encourage and facilitate the initiation of community based projects that are acceptable, affordable, sustainable, and aimed at improving the welfare of the community.
- Assist people from impoverished families by encouraging, educating, and training them to undertake some of the urgently needed obligations such as: Basic education and training, health care fundamentals, creating self sustainable homes, saving the environment, preventing wife battering.
- Assist children and orphans living with HIV/ AIDS and rehabilitating street children.
- Promoting charitable projects for the disadvantaged victims of famine, floods, and other calamities. These charitable projects are aimed at rehabilitating the victims of disasters by providing them basic needs and teaching them different ways of earning a living in order to get back on their feet.
- Providing basic education and vocational training courses to young people from impoverished communities with an aim of developing their personalities and talents- Small and micro enterprises development
